Seminar for 1L Students

Spend three days learning from some of the top trial attorneys in the state at Prosecutor Academy. This intensive trial training program will afford 1L students the opportunity to learn the skills necessary to succeed in the courtroom. During the five day seminar, experienced prosecutors from our county will instruct you on the various phases of a jury trial, including: opening statements, direct examinations, cross examinations, and closing arguments.

In addition, you will put your knowledge into action with daily practical exercises in an actual courtroom. Following each exercise, your instructors will give individualized feedback and the opportunity for you to perfect your craft.
