GLOVERS’ DANCE IN THE DARK

Vincent Xu, a UCI student studying business and economics, describes Ambience Club, a club he founded that has expanded to 15 chapters at schools across the nation.

Ambience is a club for people who want to tell a story and prove themselves using film.

“I grew up without film for my whole life,” Xu said.

He learned handCrafts in his time, so he decided to use his “glovers” skills, which range from white gloves to gloves with light in the fingertips and pearls throughout the dark. He also uses other props with glove-in-drum combinations.

“Gloves are the painterbrush; imagination is the canvas,” he said.
