Transnational Legal Orders
Edited by Terence C. Halliday and Gregory Shaffer

This book offers a path-breaking, empirically-grounded theory that reframes the study of law and society. It shifts research from a predominantly national context to one that places transnational, national, and local lawmaking and practice within a single, coherent, analytic frame.

By presenting and elaborating a new concept, transnational legal orders, Halliday and Shaffer present an original approach to legal orders that affect fundamental economic and social behaviors. The contributors generate arrays of hypotheses about how transnational legal orders rise and fall, where they compete and cooperate, and how they settle and unsettle.

This original theory is applied and developed by distinguished scholars from North America, Europe, and Asia in business law (taxation, corporate bankruptcy, secured transactions, transport of goods by sea), regulatory law (monetary and trade, finance, food safety, climate change), and human rights law (civil and political rights, rule of law, right to health/access to medicines, human trafficking, criminal accountability of political leaders).

Praise for Transnational Legal Orders
"This is a spectacular book that reshapes our approach to global law." - Tom Ginsburg, University of Chicago

"A major contribution to the study of world politics." - Michael Barnett, George Washington University

"In a book that is a delight to read, great scholars present a clear exposition of how transnational legal orders are recursively created as they transform other local, national and transnational orders." - John Braithwaite, Australian National University

"This thoughtful volume helps explode the traditional matrix that has too long artificially divided law and lawmaking into rigid domestic and international, public and private cells." - Harold Hongju Koh, U.S. Department of State

"This book provides an integrative frame to the study of the rise, the change and the practice of transnational legal orders. It is theoretically innovative, interdisciplinary and enlightening." - Michael Zürn, Free University Berlin.
